

KEDS is excited to announce the launch of our updated data collection system, KEDS 2.0!

We will begin transitioning POE administrators and KEIS providers over to KEDS 2.0 beginning **August 26, 2024**. If you have a current KEDS account, you will automatically receive an email inviting you to set up your account in the new KEDS system following the schedule listed below.

Phase-In Date	POEs
August 26	Barren River, Lincoln Trail
September 9	Northern KY
September 23	FIVCO, KY River, Lake Cumberland, Pennyrite
October 7	Bluegrass, Gateway
October 21	Purchase, Green River, Buffalo Trace, Big Sandy, Cumberland Valley
November 4	KIPDA

KEDS Access

During the phase-in period, www.kedsonline.org will continue to be linked to the original KEDS system. Users will use www.kedsio.org to access KEDS 2.0.

The original KEDS system will shut down on **December 1, 2024**. At that time, both web addresses will take users to KEDS 2.0. All users must have created an account in the new KEDS 2.0 system and completed any outstanding data entry in the original KEDS system before this date.

Assessment Data Entry

Prior to a POE's phase-in date, providers should continue to enter data for children in that POE in the original KEDS system.

Beginning on the POE's phase-in date, providers should only use the original KEDS system to complete assessments already in the process of being entered. All new assessments for children in that POE should be entered in KEDS 2.0.

Users with Multiple KEDS Accounts

Users only need one account in KEDS 2.0 as it allows for multiple POEs to be assigned to a single user account. You may receive multiple invites to join KEDS 2.0 since each account in the old KEDS system will receive an invite. You only need to accept the first invitation.

You will need to contact either KEDS or the POE administrators for any additional POEs you serve to request the POEs be added to your account as those POEs phase-in.

New Providers

If you are a new provider and do not have an existing KEDS account, please contact your POE for assistance as they manage KEIS provider accounts in KEDS.

Introduction to KEDS 2.0 – Online Sessions

To assist users in orienting to the new system, we are hosting several online Zoom meeting sessions to provide an overview of KEDS 2.0 and allow users to ask questions. You only need to attend one session as the information presented in each meeting will be the same. Each session will last approximately 90 minutes. A recording of the first session will be posted in the Resource Library, on the HELP webpage of the KEDS 2.0 website. Click the link listed below the list of dates to register for that session. After registering, you will receive a confirmation email containing information about joining the meeting.
